## 64B19-11.005, F.A.C., Supervised Experience Requirements

Review of this rule was before the newly formed Supervised Experience Review Committee at its initial meeting held on June 24, 2016. The Committee discussed revisions to the rule in light of the fact there have been approximately 15 petitions for variance/waiver filed with regard to this rule since January 2015. During that meeting, the following provisions were highlighted for review.

<p><b>1. Requirements for Post- Doctoral Supervision Completed in More Than One Location under More Than One Supervisor</b></p>
<p><b>(2)(b)</b> A psychology resident or post-doctoral fellow may be supervised by more than one supervisor, at more than one location. If there is more than one supervisor, however, then one of the supervisors must be identified as the primary supervisor. The primary supervisor shall be the supervisor who enters into the agreement with the applicant for licensure, for supervision, and who integrates all of the applicant's supervisory experiences.</p> <p><b>(2)(c)</b> The post-doctoral training must be a cohesive and integrated training experience....</p> <p><b>(3)(h)</b> When there is more than one supervisor, pursuant to paragraph (2)(b) above, the primary supervisor shall provide the Board with a written statement describing the manner in which the training and supervision comprised a cohesive and integrated experience.</p>
<p><b>Common Issues:</b></p> <ul style="list-style-type: none"><li>• The rule assumes most post-doctoral residents are planning in advance to complete the supervision in more than one location; however, the reality is that most affected applicants complete a portion of their residency in one setting and for a variety of reasons complete the hours in another setting, which puts them in the position of attempting to comply with this provision <i>after-the-fact</i>.</li><li>• Many applicants have difficulty having one of the supervisors agree to be designated as the primary supervisor after-the-fact. Preparing a cohesive and integrated experience letter under these circumstances is typically uncomfortable for the supervisor.</li></ul>
<p><b>2. Requirement for Completion of Two Hours of Clinical Supervision with One Hour of Individual Face-to-Face Supervision</b></p>
<p><b>(2)(c)</b> The post-doctoral training must be a cohesive and integrated training experience <i>which includes the following criteria:</i></p> <p><b>3.</b> It includes an average of at least two (2) hours of clinical supervision each week, at least one (1) hour of which is individual face-to-face supervision.</p> <p><b>(3)</b> Supervisors' Responsibilities. The Board requires each primary supervisor to perform and to certify that the primary supervisor has:</p> <p><b>(d)</b> Provided two (2) hours of clinical supervision each week, one (1) hour of which was individual, face-to-face supervision....</p>
<p><b>Common Issues:</b></p> <ul style="list-style-type: none"><li>• Most problems arise with persons who completed their post-doctoral experience in states with different requirements.</li><li>• Based on previous petitions filed, it appears that psychologists who have practiced successfully in</li></ul>

other states have indicated compliance with this requirement after-the-fact is an unreasonable hardship.

- The rule is not clear to many applicants in terms of what might constitute the other (1) hour of supervision (e.g., group supervision, etc.). Some only indicate the one (1) hour of face-to-face, not understanding that other types of supervision might satisfy the additional clinical hour required.

As a result of the Committee's discussion, Board Counsel prepared a draft of the suggested changes, which was reviewed by the full Board on July 22, 2016. The Board discussed the following proposed revisions to the rule:

- **Rule Introduction:** Addition of text for consistency with Section 490.005(1)(c), F.S.
- **Paragraph (1):** Adding Canadian psychologists as acceptable supervisors to (1)(c).
- **Paragraph (2):**
  - Removing the requirement of a primary supervisor from (2)(b) and adding a statement indicating if there is more than one supervisor, the training must comply with subsection (3) of the rule.
  - Removing the reference to a cohesive and integrated training experience in (2)(c).
  - Revising (2)(c)1. to indicate an average of twenty (20) hours per week (part-time) for two years or forty (40) hours per week (full time) for one year.
  - Adding language to (2)(c)2. clarifying direct client contact should include individual and group therapy or in person assessment or testing as well as allowing for contact via electronic media.
  - Adding language to (2)(c)3. clarifying clinical supervision to include individual supervision, group supervision, case presentations and to indicate the supervisor must be present.
- **Paragraph (3):** Eliminating (3)(h) from the rule.

The Board has asked the Supervised Experience Review Committee to review Paragraph (2)(c) to determine if any provisions can be made for individuals who have been licensed in good standing in another state for a certain period of time, such as ten (10) years or more.

The current proposed draft with inquiries and additional notes for the Committee's consideration during the 8/26/2016 meeting is provided in the agenda material.

**PROPOSED RULE LANGUAGE - 7/5/2016 Draft by Rachel Clark, AAG**

*With inquiries and additional notes added by staff for consideration during the 8/26/2016 committee meeting.*

**64B19-11.005 Supervised Experience Requirements.**

The law requires 2 years or 4,000 hours of supervised experience for licensure. The Board recognizes that the applicant's internship satisfies 1 year or 2,000 of those hours. This rule concerns the remaining 1 year or 2,000 hours.

(1) Definitions. Within the context of this rule, the following definitions apply:

(a) "Association" or "in association with": the supervisory relationship between the supervisor and the psychological resident.

(b) "Psychology Resident or Post-Doctoral Fellow." A psychology resident or post-doctoral fellow is a person who has met Florida's educational requirements for licensure and intends from the outset of the supervised experience to meet that part of the supervised experience requirement for licensure which is not part of the person's internship.

(c) "Supervisor." A supervisor is either a licensed Florida psychologist in good standing with the Board, or a doctoral-level psychologist licensed in good standing in another state or United States territory, or Canada providing supervision for licensure in that state or territory. However, where the psychology resident or post-doctoral fellow is on active duty with the armed services of the United States, or employed full time by the United States as a civilian psychology resident or post-doctoral fellow to provide services to the armed services or to a veterans administration facility, the supervisor may be a doctoral-level psychologist licensed in good standing in any state or territory, regardless of where the supervision is conducted.

(d) All applicants for licensure shall use the title psychology resident or post-doctoral fellow until licensed as a psychologist.

**Staff Inquiry:** *Would the committee like to consider an exception for persons who completed their post-doctoral training outside of Florida with note that the title or description of same should indicate an "in-training" status?*

(e) The psychology resident or post-doctoral fellow shall inform all service users of her or his supervised status and provide the name of the supervising psychologist. Consultation reports, and summaries shall be co-signed by the supervising psychologist. Progress notes may be co-signed at the discretion of the supervision psychologist.

(2) Requirements and Prohibitions. All applicants for licensure must complete at least 1 year or 2,000 hours of post doctoral experience under a supervisor whose supervision comports with subsection (3) of this rule.

(a) There may be no conflict of interest created by the supervisory association and no relationship may exist between the supervisor and the psychological resident except the supervisory association.

(b) A psychology resident or post-doctoral fellow may be supervised by more than one supervisor, at more than one location. If there is more than one supervisor, each supervisor must provide supervision in a manner that comports with subsection (3) of this rule however, then one of the supervisors must be identified as the primary supervisor. The primary supervisor shall be the supervisor who enters into the agreement with the applicant for licensure, for supervision, and who integrates all of the applicant's supervisory experiences.

(c) The post-doctoral training must ~~include be a cohesive and integrated training experience~~ which includes the following ~~criteria~~:

1. It averages at least twenty (20) hours a week over ~~no more than one hundred and four (104) weeks. Alternatively, it averages no more than forty (40) hours a week over no more than fifty-two (52) weeks;~~

**6/24/16 Committee Recommendation:** *"It averages at least twenty (20) hours per week for two years, if part-time, or forty (40) hours per week for one year, if full-time."*

2. It requires at least 900 hours in activities related to direct client contact;

**6/24/16 Committee Recommendation:** Direct client contact should include face-to-face (in person or via electronic media\*) individual or group therapy, in-person assessment or testing....would not include scoring of tests, notes and preparing treatment plans....

\*A note that the Board has not addressed the use of telepsychology in the laws or rules. The federal agencies may have options that other settings may not have.

3. It includes an average of at least two (2) hours of clinical supervision each week, at least one (1) hour of which is individual face-to-face supervision.

**Board Council's Recommendation:** Elimination of this requirement.

**6/24/16 Committee Recommendation:** The additional hour of clinical supervision may include individual supervision, group supervision, case presentations – in all cases licensed psychologist supervisor must be present.

**7/22/16 Board Chair's Recommendation:** Consider allowing exception for out-of-state persons who completed post-doctoral experience under other state's requirements.

(3) Supervisors' Responsibilities. The Board requires each primary supervisor to perform and to certify that the primary supervisor has:

(a) Entered into an agreement with the applicant for licensure, which details the applicant's obligations and remuneration as well as the supervisor's responsibilities to the applicant;

(b) Determined that the psychology resident or post-doctoral fellow was capable of providing competent and safe psychological service to that client;

(c) Maintained professional responsibility for the psychology resident or post-doctoral fellow's work;

~~(d) Provided two (2) hours of clinical supervision each week, one (1) hour of which was individual, face-to-face supervision;~~

~~**Board Council's Recommendation:** Elimination of this requirement.~~

~~**6/24/16 Committee Recommendation:** The additional hour of clinical supervision may include individual supervision, group supervision, case presentations as long as the licensed psychologist supervisor is present.~~

~~**7/22/16 Board Chair's Recommendation:** Consider allowing exception for out-of-state persons who completed post-doctoral experience under other state's requirements.~~

(e) Prevailed in all professional disagreements with the psychology resident or post-doctoral fellow;

(f) Kept informed of all the services performed by the psychology resident or post-doctoral fellow;

(g) Advised the Board if the supervisor has received any complaints about the psychology resident or post-doctoral fellow or has any reason to suspect that the resident is less than fully ethical, professional, or qualified for licensure.

(h) When there is more than one supervisor, pursuant to paragraph (2)(b) above, ~~each the primary~~ supervisor shall provide the Board with a written statement describing the manner in which the training and supervision took place ~~comprised a cohesive and integrated experience.~~

**6/24/16 Committee Recommendation:** Eliminate this paragraph.

(4) Until licensure, an individual who completes post doctoral training residency may continue to practice under supervision so long as the individual does so in the manner prescribed by this rule and so long as the individual has applied for licensure and no final order of denial has been entered in the application case before the Board.

**Staff Inquiry:** Does the Committee wish to clarify that individuals are allowed to "continue" under supervision in other than the original post-doctoral supervision setting as long as they have an open application and meet all other requirements of this section?

## CURRENT RULE LANGUAGE

### **64B19-11.005 Supervised Experience Requirements.**

The law requires 4,000 hours of supervised experience for licensure. The Board recognizes that the applicant's internship satisfies 2,000 of those hours. This rule concerns the remaining 2,000 hours.

(1) Definitions. Within the context of this rule, the following definitions apply:

(a) "Association" or "in association with": the supervisory relationship between the supervisor and the psychological resident.

(b) "Psychology Resident or Post-Doctoral Fellow." A psychology resident or post-doctoral fellow is a person who has met Florida's educational requirements for licensure and intends from the outset of the supervised experience to meet that part of the supervised experience requirement for licensure which is not part of the person's internship.

(c) "Supervisor." A supervisor is either a licensed Florida psychologist in good standing with the Board, or a doctoral-level psychologist licensed in good standing in another state or United States territory providing supervision for licensure in that state or territory. However, where the psychology resident or post-doctoral fellow is on active duty with the armed services of the United States, or employed full time by the United States as a civilian psychology resident or post-doctoral fellow to provide services to the armed services or to a veterans administration facility, the supervisor may be a doctoral-level psychologist licensed in good standing in any state or territory, regardless of where the supervision is conducted.

(d) All applicants for licensure shall use the title psychology resident or post-doctoral fellow until licensed as a psychologist.

(e) The psychology resident or post-doctoral fellow shall inform all service users of her or his supervised status and provide the name of the supervising psychologist. Consultation reports, and summaries shall be co-signed by the supervising psychologist. Progress notes may be co-signed at the discretion of the supervision psychologist.

(2) Requirements and Prohibitions. All applicants for licensure must complete at least 2,000 hours of post doctoral experience under a supervisor whose supervision comports with subsection (3) of this rule.

(a) There may be no conflict of interest created by the supervisory association and no relationship may exist between the supervisor and the psychological resident except the supervisory association.

(b) A psychology resident or post-doctoral fellow may be supervised by more than one supervisor, at more than one location. If there is more than one supervisor, however, then one of the supervisors must be identified as the primary supervisor. The primary supervisor shall be the supervisor who enters into the agreement with the applicant for licensure, for supervision, and who integrates all of the applicant's supervisory experiences.

(c) The post-doctoral training must be a cohesive and integrated training experience which includes the following criteria:

1. It averages at least twenty (20) hours a week over no more than one hundred and four (104) weeks. Alternatively, it averages no more than forty (40) hours a week over no more than fifty-two (52) weeks;

2. It requires at least 900 hours in activities related to direct client contact;

3. It includes an average of at least two (2) hours of clinical supervision each week, at least one (1) hour of which is individual face-to-face supervision.

(3) Supervisors' Responsibilities. The Board requires each primary supervisor to perform and to certify that the primary supervisor has:

(a) Entered into an agreement with the applicant for licensure, which details the applicant's obligations and remuneration as well as the supervisor's responsibilities to the applicant;

(b) Determined that the psychology resident or post-doctoral fellow was capable of providing competent and safe psychological service to that client;

(c) Maintained professional responsibility for the psychology resident or post-doctoral fellow's work;

(d) Provided two (2) hours of clinical supervision each week, one (1) hour of which was individual,

face-to-face supervision;

(e) Prevailed in all professional disagreements with the psychology resident or post-doctoral fellow;

(f) Kept informed of all the services performed by the psychology resident or post-doctoral fellow;

(g) Advised the Board if the supervisor has received any complaints about the psychology resident or post-doctoral fellow or has any reason to suspect that the resident is less than fully ethical, professional, or qualified for licensure.

(h) When there is more than one supervisor, pursuant to paragraph (2)(b) above, the primary supervisor shall provide the Board with a written statement describing the manner in which the training and supervision comprised a cohesive and integrated experience.

(4) Until licensure, an individual who completes post doctoral training residency may continue to practice under supervision so long as the individual does so in the manner prescribed by this rule and so long as the individual has applied for licensure and no final order of denial has been entered in the application case before the Board.

490.005 Licensure by examination.—

(1) Any person desiring to be licensed as a psychologist shall apply to the department to take the licensure examination. The department shall license each applicant who the board certifies has:

*(c) Had at least 2 years or 4,000 hours of experience in the field of psychology in association with or under the supervision of a licensed psychologist meeting the academic and experience requirements of this chapter or the equivalent as determined by the board. The experience requirement may be met by work performed on or off the premises of the supervising psychologist if the off-premises work is not the independent, private practice rendering of psychological services that does not have a psychologist as a member of the group actually rendering psychological services on the premises.*

**7 RULES REVIEW AND/OR DEVELOPMENT**

8 **Tab 1.** 64B19-11.005, F.A.C., Supervised Experience Requirements

9 Review of this rule was before the April 22, 2016 General Business Meeting for discussion on  
10 provisions identified by the Board Chair and Board Counsel and in light of the fact that there have  
11 been approximately 15 petitions for variance/waiver filed with regard to this rule since January  
12 2015. Dr. Andrew Rubin and Dr. Randi Mackintosh formed a subcommittee to address any  
13 potential changes to the rule.

14 Highlighted for discussion are the following provisions:

<b>1. Requirements for Post- Doctoral Supervision Completed in More Than One Location under More Than One Supervisor</b>
--

<p><b>(2)(b)</b> A psychology resident or post-doctoral fellow may be supervised by more than one supervisor, at more than one location. If there is more than one supervisor, however, then one of the supervisors must be identified as the primary supervisor. The primary supervisor shall be the supervisor who enters into the agreement with the applicant for licensure, for supervision, and who integrates all of the applicant's supervisory experiences.</p>
--

<p><b>(2)(c)</b> The post-doctoral training must be a cohesive and integrated training experience....</p>
---

<p><b>(3)(h)</b> When there is more than one supervisor, pursuant to paragraph (2)(b) above, the primary supervisor shall provide the Board with a written statement describing the manner in which the training and supervision comprised a cohesive and integrated experience.</p>
--

<b>Common Issues:</b>
-----------------------

# Minutes

- The rule assumes most post-doctoral residents are planning in advance to complete the supervision in more than one location; however, the reality is that most affected applicants complete a portion of their residency in one setting and for a variety of reasons complete the hours in another setting, which puts them in the position of attempting to comply with this provision *after-the-fact*.
- Many applicants have difficulty having one of the supervisors agree to be designated as the primary supervisor after-the-fact. Preparing a cohesive and integrated experience letter under these circumstances is typically uncomfortable for the supervisor.

## 2. Requirement for Completion of Two Hours of Clinical Supervision with One Hour of Individual Face-to-Face Supervision

**(2)(c)** The post-doctoral training must be a cohesive and integrated training experience *which includes the following criteria:*

**3.** It includes an average of at least two (2) hours of clinical supervision each week, at least one (1) hour of which is individual face-to-face supervision.

**(3)** Supervisors' Responsibilities. The Board requires each primary supervisor to perform and to certify that the primary supervisor has:

**(d)** Provided two (2) hours of clinical supervision each week, one (1) hour of which was individual, face-to-face supervision....

### Common Issues:

- Most problems arise with persons who completed their post-doctoral experience in states with different requirements.
- Based on previous petitions filed, it appears that psychologists who have practiced successfully in other states have indicated compliance with this requirement after-the-fact is an unreasonable hardship.
- The rule is not clear to many applicants in terms of what might constitute the other (1) hour of supervision (e.g., group supervision, etc.). Some only indicate the one (1) hour of face-to-face, not understanding that other types of supervision might satisfy the additional clinical hour required.

1 Dr. Randi Mackintosh has volunteered to chair this committee. The committee discussed the  
2 following revisions to the rule.

3 • Adding Canadian psychologists as acceptable supervisors to (1)(c).

4 • Removing the requirement of a primary supervisor from (2)(b) and adding a statement  
5 indicating if there is more than one supervisor, the training must comply with subsection (3)  
6 of the rule. The post-doctoral resident and each supervisor must enter into an agreement  
7 for supervision and licensure.

8 • Removing the reference to a cohesive and integrated training experience ~~to~~ from (2)(c).

9 • Revising ~~(2)(c)(1)~~ 1. to indicate an average of twenty (20) hours per week (part-time) for two  
10 years or forty (40) hours per week for one year.

11 • Adding language to ~~(2)(c)(2)~~ 2. clarifying that direct client contact should include individual  
12 and group therapy or in person assessment or testing as well as allowing for contact via  
13 electronic media.

14 • Adding language to ~~(2)(c)(3)~~ 3. clarifying clinical supervision to include individual  
15 supervision, group supervision, case presentations and to indicate that the supervisor must  
16 be present.

17 • Eliminating ~~(2)(h)~~ (3)(h) from the rule.

- 1 Ms. Clark recommended adding “2 years” to the introduction of the rule for consistency with the
- 2 underlying statute, Section 490.005(1)(c), F.S.
- 3 Rachel Clark will prepare draft language to present at the July 22, 2016 General Business meeting.
- 4 The meeting adjourned at 8:45 a.m.
